## Description:

### What is Frontline Gold?

Frontline Gold is a topical monthly flea and tick preventative for dogs and cats. One dose of its triple-action formula kills fleas, flea eggs, larvae, chewing lice, and ticks for a full month. Frontline Gold has a new ingredient, pyriproxyfen, which helps kill the next generation of flea eggs and larvae before they have a chance to develop into adult fleas. Frontline Gold starts killing fleas in just 30 minutes.

### For:

Dogs/Puppies (over 8 weeks of age) and Cats/Kittens (over 8 weeks of age, weighing 3 lbs or more)

## Benefits:

- Fast-acting and long-lasting
- Kills fleas, flea eggs, larvae, chewing lice, and ticks for a month
- Kills next generation of flea eggs and larvae
- Starts killing fleas in 30 minutes
- Easy applicator
- Waterproof 24 hours after application

## How does Frontline Gold work?

Frontline Gold contains fipronil, which kills adult fleas and ticks while storing itself in your pet's oil glands to work continuously for 1 month as it's released from the hair follicles onto the skin and coat. The other two ingredients, S-methoprene and pyriproxyfen, kill the next generation of flea eggs and larvae before they develop into adult fleas.

## Cautions:

For external use only. Don't use on puppies under 8 weeks of age. Don't use on cats and kittens under 8 weeks of age or weighing under 3 lbs.

## \*Bravecto-\*Rebates

	3 Mo	6 Mo	12 Mo
Canine (Any weight) .....	\$63.....	\$118.....	\$217

**Description:**

Bravecto is a tasty chew that provides flea and tick preventative for up to 12 weeks. Bravecto is safe for dogs weighing at least 4.4 lbs and for puppies aged 6 months or older.

Bravecto is the longest lasting flea prevention on the market with a single chew lasting for up to 12 weeks. It works fast beginning to kill fleas within 2 hours and continues to work to break the flea life cycle. It also kills a wide variety of ticks that can transmit diseases to humans including deer ticks, American dog ticks, brown dog ticks, and lone star ticks. FDA approved and veterinarian recommended.

Feline 1.8-5.5 lbs lbs (Red).....	\$49.....	\$85.....	\$158
Feline 5.6-16.5 lbs (Green).....	\$49.....	\$85.....	\$158

## Description:

### What is Centragard?

Centragard is a topical solution for cats that provides protection against heartworm disease caused by *Dirofilaria immitis* and treats and controls roundworms, tapeworms, and hookworms. It is a safe, monthly topical medication for cats and kittens 7 weeks of age or older and 1.8 lbs or more. Centragard comes in single-use applicators for simple administration. Needs to be combined with Frontline Gold to protect from Fleas and Ticks.

### Benefits:

- Protects your cat from heartworm disease
- Treats and controls roundworms, tapeworms, and hookworms
- Only one dose required per month
- Easy to administer.

### How does Centragard work?

When applied, Centragard absorbs through the skin and circulates into the bloodstream. Concentrations of eprinomectin and praziquantel, the active ingredients, in the tissue and bloodstream help prevent heartworm disease and treat and control other worms.

## Description

Advantage Multi is an effective, convenient monthly topical solution for dogs and cats. It offers broad spectrum parasite protection in one easy application.

**Advantage Multi for Dogs** offers heartworm disease prevention that forgives if you forget. We all know how busy life can be and remembering to give heartworm protection on the same day every month can be a challenge. With Advantage Multi for Dogs, if you forget and go over 30 days between applications, just treat immediately and resume your monthly schedule. Advantage Multi for Dogs also kills adult fleas through contact, meaning they don't have to bite your dog to die. Additionally, the product treats flea infestations as well as 3 common intestinal parasites that infect and harm dogs (roundworms, hookworms, and whipworms). It also treats a very itchy skin mite called sarcoptic mange, which can infect people.

**Advantage Multi for Cats** kills adult fleas through contact meaning they don't have to bite and feed on your cat die. It treats flea infestations as well as treats and controls the common occurring ear mite and intestinal parasites roundworms and hookworms. Advantage Multi for Cats prevents also heartworm disease, an often-overlooked concern in cats. Additionally, Advantage Multi for Cats is also the first and only FDA-approved product to kill adult fleas, treat flea infestations, and prevent heartworm disease in ferrets.

	6 Mo	12 Mo
Canine 1-25 lbs (Blue).....	\$42.....	\$78
Canine 25-50 lbs (Green).....	\$49.....	\$92
Canine 51-100 lbs (Brown).....	\$57.....	\$108

Heartgard Plus is a monthly beef flavored chewable that can help prevent heartworm infection in your dog – and can help your dog avoid the risk, stress, and long periods of confinement that go along with treatment for canine heartworm disease.

Heartgard Plus is recommended for dogs 6 weeks of age and older. For dogs over 100 lb. use the appropriate combination of these chewables.

Heartgard Plus is a real-beef flavored oral chew so there is no external residue. It helps prevent

heartworm disease in dogs as well as other parasites. Heartworms can kill or dramatically shorten a dog's life. Hookworms and Roundworms are parasites easily transmitted in the environment. They have been known to be transferred to humans and cause blindness and discomfort.

**Description:**

Simplify your dog’s heartworm and flea protection with Sentinel Spectrum, the only beef-flavored chewable to protect against 6 parasites. Sentinel Spectrum is approved for Dogs & Puppies 6 weeks of age, and weighing 2 lbs or greater.

Given monthly, Sentinel Spectrum prevents heartworms and prevents and controls fleas. Each chew also treats and controls whipworms, hookworms, roundworms and tapeworms.

Sentinel Spectrum is a beef-flavored chewable tab given once a month on the same day of each month year-round.

**\*NexGard-\*Rebates**

	3 Mo	6 Mo	12 Mo
Canine 4-10 lbs (Brown).....	\$63.....	\$119.....	\$209
Canine 10-24 lbs (Green).....	\$65.....	\$121.....	\$212
Canine 24-60 lbs (Yellow).....	\$65.....	\$125.....	\$214
Canine 60-121 lbs (White).....	\$68.....	\$129.....	\$219

**Description:**

NexGard for dogs kills adult fleas before they lay eggs, and kills ticks, too. All in a delicious, soft chew that dogs love. It's the #1 choice of vets for their dog and yours. It is safe, effective, and FDA approved. It is approved for dogs age 8 weeks or older and weighing 4 pounds or greater.

NexGard is an oral chew so there is no external residue. In a study, NexGard killed 100% of fleas within 24 hours. NexGard stimulates the fleas' nervous system, causing them to rise to the top of your dog's haircoat as they die. Because it is an oral product, swimming or bathing has no effect on NexGard. Your dog's coat can get wet immediately after taking product. It kills three types of ticks too including the American dog tick, the black-legged (Deer) tick and the Lone Star tick which decreases the risk of your pet developing a deadly tick-borne disease. This product can be taken alongside a heartworm preventative.

# \*Simparica

	3 Mo	6 Mo
Canine 2.8-5.5 lbs (Yellow).....	\$49.....	\$94

Canine 60-120 lbs (Brown).....	\$103.....	\$202

## Description

One little flea can't possibly be a problem, can it? It can. A single female flea can produce up to 50 eggs a day,1 turning “one little flea” into a full-blown infestation before you even know it’s there. Comfortis® (Spinosad), now available for dogs and cats, starts killing fleas before they lay eggs and provides a full month of flea protection to help prevent future flea infestations.” And Comfortis is easy to administer! A flavored tablet is administered orally, so no residue, no worries about washing off after swimming, bathing, or grooming.

Comfortis chewable tablets are recommended for monthly use in dogs 3.3 pounds or greater, cats 2 pounds or greater and puppies and kittens 14 weeks and older.

Comfortis is a fast acting, effective flea control. There is no sticky residue since it is an oral medication so there is no need to isolate your pet. You can let your dog go to the groomer or swim without concern that the product will rub off or become less effective. It is made by the same manufacturer as Trifexis and contains the same active ingredient except there is no heartworm prevention in Comfortis.

Give Comfortis with food for maximum effectiveness. Because it is a flavored tablet, it can be offered just prior to or just after feeding. You can also administer Comfortis as you would other tablet medications.

## \*Tri-Heart Plus

	6 Mo	12 Mo
Canine 1-25 lbs (Blue).....	\$35.....	\$62
Canine 26-50 lbs (Green).....	\$39.....	\$75
